Binoculars for the Professional Mariner

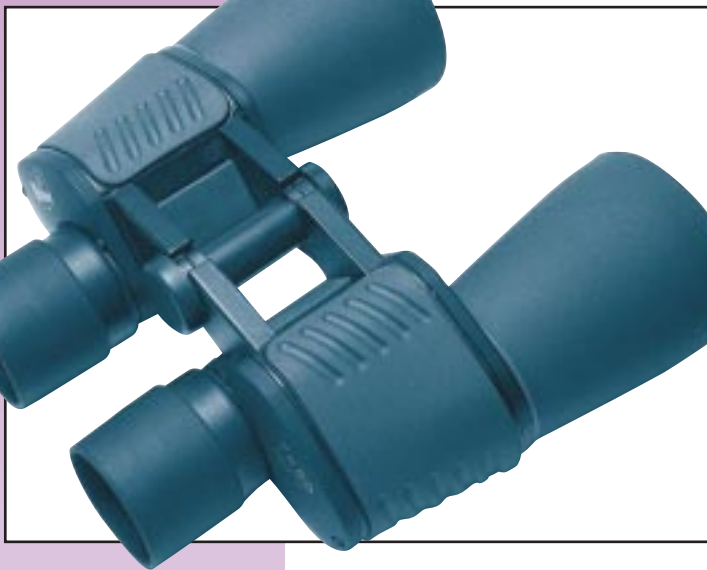

Oceanmaster Binoculars

7 x 50 heavy duty, nitrogen filled, waterproof binocular of top quality construction specially designed for professional marine use. Feature superior quality Bak - 4 prisms, multi-coated lenses, individual eyepiece focusing and rubber armouring.

Dimensions (L x W x H) 177 x 205 x 63

Weight 1150g

Stock No BIN 003

Viking Pre-focus Binoculars

7x 50 lightweight focus free binocular for marine and other purposes where speed and ease of use are paramount. Fully coated optics. Suited for use with, or without spectacles. Supplied with case, strap and lanyard.

Weight 725g

Stock No BIN 004

Naturesport Binoculars

7 x 50 specification allows adequate magnification with outstanding light gathering power in all lighting conditions. The traditional mariners binocular. Rubber armour and independent eyepiece focusing give added protection against rough weather although this should not be regarded as a fully waterproof binocular. Rubber fold down eyecups. Supplied with good quality case.

Weight 850g

Stock No BIN 002

Sextants for the Professional Mariner

Astron III B

A best value, top class precision instrument.

Standard delivery includes: a varnished mahogany case, instruction booklet, adjusting wrench, screwdriver, vial of oil, cleaning cloth, spare springs and LED, and a factory test certificate.

OPTICAL QUALITY

A crystal clear telescope and large mirrors collect ample light for star sights.

Three horizon and four index shades permit a good range of density combinations for sun sights. A modern whole horizon mirror makes sights easier than ever (a traditional split mirror is also available).

COMFORT

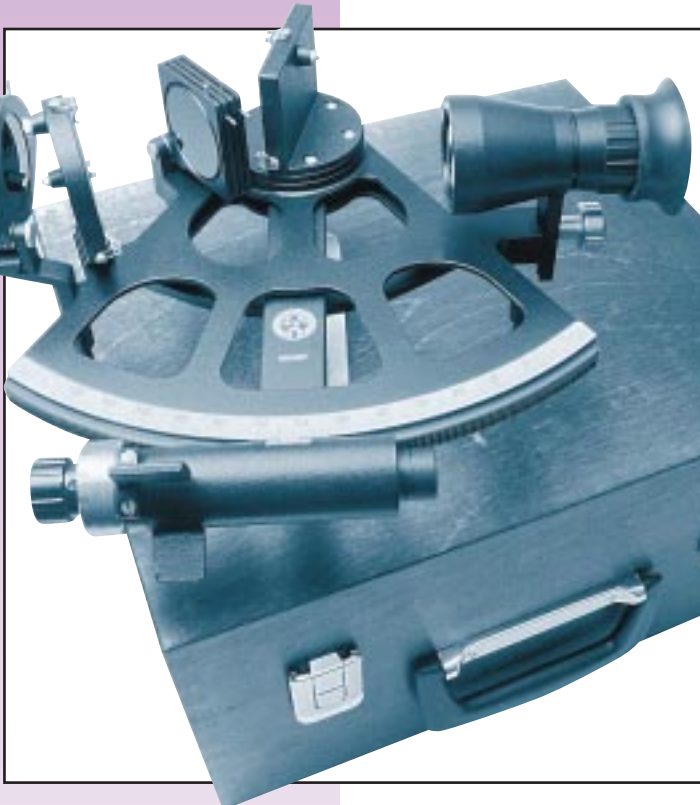

Sturdy aluminium alloy frame is heavy enough to afford steadiness, but light enough for shots that may require a minute or two. The handle is well centred for comfort and weight.

DURABILITY

Tough, strong aluminium alloy with corrosion-resistant finish, safely secured in a solid wooden carrying case.

Weight 3.5kg

Stock No SEX 001

Freiberger Drum

A full sized modern style sextant with a number of excellent features including:

Clamping device (Drum) fully enclosed.

Large Horizon and Index mirrors.

Certificate of arc errors for every 10°.

Telescope magnification x 3.5.

Complete with wooden case.

Weight 1.4kg

Stock No SEX 002

Night Vision Scopes for the Professional

Helios - 01 Compact Night Vision Scope With Infra-red Illuminator

A superb, ergonomically designed hand held unit utilising the latest in GEN-1 Night Vision technology. Features built-in infra-red illumination allowing use in near or total darkness. Extremely robust in construction with a solid metal body designed to withstand shocks and protect the unit from water, dirt etc. Extremely easy to use, the unit is well balanced and fits snugly into the palm of your hand. The unit and independent infra-red illuminator are operated via convenient thumb switches located near the eyepiece. A range of apertures on the lens allows you to adjust the brightness of the illumination.

Supplied in padded carrying case with shoulder strap.

Dimensions (L x W x H) 190 x 90 x 75mm

Weight 915g

Stock No SCO 001

TNZ - 4 Night Vision Scope With Infra-red Illuminator

An extremely popular GEN-1 model at a very affordable price. Features built-in infra-red illumination for enhanced low light performance. The unit is operated by pulling a trigger button conveniently located on the instruments handle. The infra-red unit can be switched on and off independently. The objective lens can be interchanged with other M42 lenses. The unit is well balanced and comfortable to hold.

Supplied with camera adaptor and carrying case.

Dimensions (L x W x H) 240 x 66 x 190mm

Weight 950g

Stock No SCO 002
