Press Release

Thomas Gunn now top supplier of navigation services to Unicom fleet

Thomas Gunn Navigation Services is delighted to announce that it has been awarded an important new contract by Unicom to supply an additional 43 vessels with its outfit management service. Thomas Gunn now supplies navigation solutions to 78 vessels, the bulk of the Unicom fleet.

"We value the strong business relationship we have built up with Unicom over a number of years," says Thomas Gunn, founder and Managing Director of Thomas Gunn Navigation Services. "We are very pleased that their positive experience of that relationship has enabled us to develop our partnership further, and are looking forward to working closely with them in the future."

Thomas Gunn will supply the Unicom fleet with both Russian Hydrographic Office and UK Hydrographic Office charts and publications, in both digital and paper format, customised to the operating requirements and the vessel specific requirements of Unicom. Serving the mariner in the SOLAS regulated market for over 30 years Thomas Gunn is the world's largest supplier of digital navigation solutions and paper charts.

Unicom is a member of the Sovcomflot Group, acting as an independent ship management company providing services such as full management, technical management, crew management, commercial management, full operation management including disbursement and freight and hire calculations, marine insurances & claims handling and project and newbuilding supervision.

2012-02-20
